

**TAMING THE MONSTER JOURNAL—  
A HUG TO THE NUMEROUS REVIEWERS**

**Manufacturing Monsters**

This special issue greatly benefited from the generous work by the following forty-six reviewers who wrote fifty-one reviews (of twenty-five manuscripts—*id est*: six hundred twenty-five pages; including one thousand and one bibliographical entries).

To you, dear reviewers: Your *monstrous* support was, as so often, unpaid—but valuable indeed. The energy you have put together in writing your thorough reviews substantially helped in shaping and re-shaping (and sometimes even re-re-shaping) the wonderful scientific endeavors of our authors.

Thank you so much!
